# 1. INVESTMENT OVERVIEW

## FUND OVERVIEW

The MCP Secured Private Debt Fund II (the “Fund”) is an unregistered open-ended unit trust. It invests in a portfolio of bilateral, club-style and syndicated loans predominantly to sub investment grade mid-market Australian corporate borrowers across industries. The Fund offers Investors direct exposure to Australia’s bank dominated mid-market corporate loan market by investing in loans to private corporates, private equity sponsored, real estate and structured finance borrowers.

Metrics believes that mid-market corporate loans offer attractive returns and an investment in the Fund provides an excellent opportunity to access this market and to diversify existing investment portfolios. The aim of the Fund is to:

- > provide direct exposure to a well-constructed portfolio of sub-investment grade secured mid-market corporate loans;
- > provide Investors with access to the management skill and market experience of Metrics thereby ensuring Investors benefit from a strong, pro-active risk management culture focussed on Investor capital preservation;
- > provide Investors with the benefits of scale in terms of portfolio construction;
- > provide Investors an opportunity to generate higher returns as a result of the active management and direct asset origination capability of Metrics;
- > provide Investors with access to the returns (base interest rate, credit margin and lending fees) available from direct lending to mid-market corporate borrowers; and
- > provide Investors access to underlying floating rate debt instruments generating attractive returns.

The Fund is managed by Metrics Credit Partners Pty Ltd (“Metrics”) who have the skills and experience to pursue market opportunities, drive superior returns, undertake detailed credit analysis, negotiate and structure bespoke secured mid-market corporate loan facilities, and actively manage portfolio risks to deliver outperformance.

Metrics believes that the Fund represents a low cost means of gaining a scale and diversified exposure to the bank dominated mid-market corporate lending market.

## MARKET OPPORTUNITY

Australia’s mid-market corporate lending market provides direct, bilateral, club-style and syndicated lending opportunities that up until now have not been readily available to non-bank Investors. This is a very attractive segment of Australia’s corporate loan market, and is dominated almost entirely by the major four domestic banks.

Australia’s mid-market corporate lending market is characterised by high barriers to entry including:

- > the market dominance of the Australian major banks which have extensive relationships and operate full service business models that increase the cost and risk of asset origination for new entrants;
- > the high fixed cost base incurred by a new entrant at start up prior to its portfolio achieving a profitable scale;
- > the requirement for significant levels of capital to build a diversified portfolio to mitigate individual borrower and sector risk; and
- > borrowers’ desire to deal with established lenders with significant capital and expertise.

A number of circumstances have resulted in an opportunity in the mid-market corporate lending market for a non-bank lender able to overcome market barriers to entry and to exploit advantageous market conditions. These external factors include:

- > increased bank regulation which is increasing the cost of lending which is passed on to borrowers; and
- > capital adequacy requirements for banks increasing in line with regulation making it more expensive for banks to lend, which in turn is passed through to borrowers.

Metrics believes that the Fund is designed to be an accessible means for Investors to capitalise on this market opportunity and to enable investment in a directly originated, actively managed and diversified portfolio of secured mid-market loan assets.

## **METRICS CREDIT PARTNERS**

Metrics is an alternative asset manager specialising in fixed income, private credit, equity and capital markets.

Metrics' Investment Team has significant experience in funds management, corporate finance, corporate and institutional lending and capital markets and currently manages a number of wholesale and retail (ASX listed) funds.

Metrics is a wholly owned subsidiary of Metrics Credit Holdings Pty Ltd (ACN 150 647 091) ("MCH") which in turn is 65% owned by the Investment Team and 35% by Pinnacle Investment Management Limited (ACN 109 659 109) ("Pinnacle"). Pinnacle is a subsidiary of ASX listed Pinnacle Investment Management Group Limited (ASX: PNI).

## **INVESTMENT PHILOSOPHY**

Metrics believes that Australian mid-market corporate lending offers attractive risk-adjusted returns, however, is difficult to access. As these loans are secured, predominately sub-investment grade and often bi-lateral, they generally are less liquid and attract a return premium above more liquid syndicated corporate loans.

Metrics provides Investors with access to this market via direct origination of secured mid-market direct corporate lending diversified by borrowers, sectors, geography, purpose, and position in the capital structure. Most investors have limited means of accessing this market and lack the scale to achieve a beneficial level of diversification.

An experienced investment team that understands the various sources of income available from, and risks associated with, mid-market direct corporate lending, is best able to implement investment strategies and processes able to maximise returns from this asset class.

## **INVESTMENT OBJECTIVE**

The Investment Objective of the Fund is to actively invest in and manage a portfolio of secured mid-market corporate loans providing Investors with superior risk-adjusted returns. The Fund intends to make monthly income distributions while seeking to preserve Investor capital. The Manager seeks to implement active strategies designed to balance delivery of the Hurdle Return, while seeking to preserve Investor capital.

## **MCP SECURED PRIVATE DEBT FUND II**

The Fund is an unregistered open-ended unit trust offering wholesale clients the opportunity to access the Australian mid-market corporate loan market which is bank-dominated and characterised by high barriers to entry.

### **Fund Risk & Return Profile**

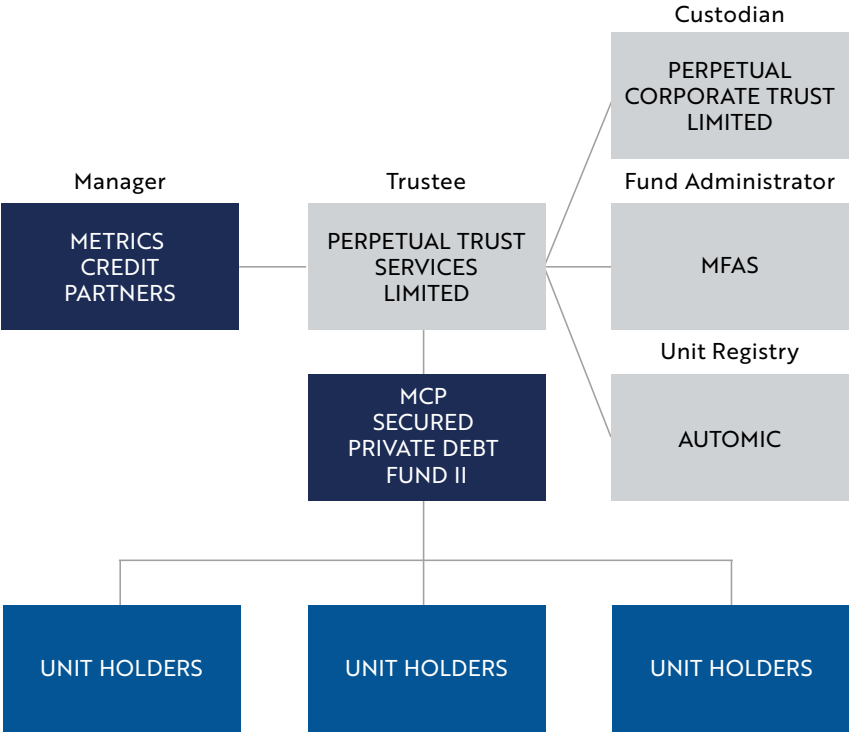

Metrics believes that the Australian mid-market corporate loan market, historically dominated by regulated banks, offers Investors attractive risk-adjusted returns via directly originated, bespoke structured facilities. The facilities are typically characterised by targeted covenants, reporting, controls and security specifically negotiated by Metrics' experienced Investment Team to enhance the defensive characteristics of the underlying loans.

### **Overcoming Barriers to Entry**

As an aggregator of non-bank investor capital, the Fund is designed to achieve the economies of scale required to actively participate in the Australian mid-market corporate loan market. As an active market participant providing meaningful liquidity to borrowers, the Fund targets early engagement, strong deal flow origination and quality investment opportunities resulting in superior portfolio construction and enhanced returns for Investors.

### **Fund Structure**

Perpetual Trust Services Limited ABN 48 000 142 049 is the trustee and Perpetual Corporate Trust Limited ABN 99 000 341 533 is the custodian.   - Metrics has acted with dishonesty or wilful misconduct, or acted fraudulently or negligently in its capacity as manager; or
  - Metrics breaches an Investment Document in a way that materially adversely affects the interests of the Trust or Investors (and fails to rectify the breach within a reasonable time),

provided that Metrics is given at least 30 days' prior notice of the resolution and is given an opportunity to address Investors; or

- > where a member of the Investment Team has acted with fraud, dishonesty or wilful misconduct in connection with the Fund.

#### **Unit Registry**

The Trustee has appointed Automic as the Unit Registry to provide registry services under the Unit Registry Agreement including:

- > processing of applications and redemptions;
- > maintenance of the Fund register of Investors: and
- > payment of distributions.

A range of service level expectations in respect of the Unit Registry have been agreed with Automic.

#### **Fund Administrator**

The Trustee has appointed MFAS as Fund Administrator providing pricing, fund accounting and financial reporting under the Fund Administration Services Deed.

MFAS' key responsibilities under the Fund Administration Services Deed include:

- > payment of distributions;
- > calculation of distributions;
- > preparation and delivery of Investor reports;
- > portfolio transaction reconciliation;
- > daily portfolio valuation and Unit pricing;
- > preparation of management and Fund statutory accounts; and
- > preparation and lodgement of Fund regulatory reporting.

A range of service level expectations in respect of Fund administration have been agreed with MFAS which are monitored by both the Trustee and Metrics. A suite of transitional servicing support obligations has also been agreed by the Trustee, MFAS and Metrics to ensure that in the event that a new Fund Administrator is appointed, the transition occurs with as minimal disruption to the Fund as possible.

#### **Custodian**

The Trustee has appointed Perpetual Corporate Trust Limited as Fund custodian to hold Fund property under the Custody Agreement. The Custodian is a wholly owned subsidiary of Perpetual Limited.

The role of the Custodian is limited to holding assets of the Fund. Where the Fund acquires legal title to a loan asset, the Custodian will be the lender of record in respect of the asset. The Custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests. The Custodian has no liability or responsibility to you for any act done or omission made in accordance with the Custody Agreement.

The Custodian was not involved in preparing, nor takes any responsibility for this document and makes no guarantee of the success of the Fund nor the repayment of capital or any particular rate of capital or income return.

#### **Fund Distribution**

Distribution and other marketing of the Fund is undertaken by Metrics and the Distribution Partner.

#### **INVESTOR ELIGIBILITY & APPLICATION**

An offer to invest in the Fund may only be made to wholesale clients (as defined in section 761G of the Corporations Act). A minimum initial Application of A\$50,000 applies (which may be reduced at the Trustee's discretion). Applications are made by submitting a Subscription Agreement obtained from Metrics.

Investors must provide certain information as required by the Trustee as part of the Fund's Know Your Customer obligations. An Investor's interest in Units cannot be registered without having provided this information (also see Transfer of Units section).

The Trustee and Metrics may provide to the Australian Taxation Office, or any other government department or agency, information regarding Fund Investors, investments, income, or any other information requested by those organisations.

## UNIT INFORMATION

### Units

The Fund will issue a class of Units which comprise an equal and undivided interest in the assets of the Fund as a whole. The Fund may issue additional classes of Units in the future and on different terms. Units do not confer an interest in particular Fund assets.

All Units are issued to fractions of two decimal places of a Unit. A Unit has no nominal or par value. Units are uncertificated and maintained solely by entries on the Unit register.

The Fund may also issue unsecured convertible notes (“Notes”) to certain Investors with a return referable to the returns on the underlying investments of the Fund. The notes will rank behind third party creditors and will rank equally alongside other Investors in the Fund. Any losses in the underlying assets of the Fund will reduce the value of the Notes and Units rateably.

The Notes will not carry the right to vote unless required by law.

The Trustee may repay the note early and must repay early if an event of default occurs. An event of default includes if the Trustee is insolvent or the Fund is terminated.

The Trustee may choose to convert the Notes into Units during the term of the Notes.

### Subscription, Redemption and Transfer of Units

#### Subscriptions

Applications to invest in the Fund are made by way of the Subscription Agreement which is included with this Information Memorandum. To invest in the Fund, a completed Subscription Agreement and associated documents (including proof of identity documents) must be provided to the Unit Registry by 5:00 pm on the relevant monthly Closing Date. Subscription Agreements may be refused in full or in part by the Trustee in its absolute discretion.

Units issued on or within 20 Business Days of the first Closing Date will be issued at \$1.00. Units issued thereafter will be issued at Net Unit Value as at the date of issue plus any Transaction Costs.

The total amount an Investor agrees to invest becomes their Committed Capital. The Committed Capital will be paid to the Fund by way of instalments, with the issue of fully paid Units

at the issue price at that time, as a result of calls made by the Trustee. Investors who have submitted a Subscription Agreement on a monthly Closing Date will be called on that Committed Capital in priority to Investors of the same class of Units who have submitted a Subscription Agreement on a subsequent monthly Closing Date.

#### Capital drawdowns

The Committed Capital of an Investor will be paid by way of instalments. Investors who have applied on the same monthly Closing Date will be called pro rata to their Committed Capital.

The Trustee may, on 10 Business Days’ notice, call on Investors for all or part of their unpaid Committed Capital at any time.

Drawdowns can be made to fund asset acquisitions, working capital requirements or other Fund liabilities. There is no minimum drawdown amount, however, the total amount of capital that in aggregate will be called from an Investor to the Fund will not, subject to the law, exceed that Investor’s Committed Capital.

Uncalled Committed Capital which has not otherwise been committed, or reserved for current or potential investments, by the Fund or reserved for fees and expenses may at the discretion of the Trustee be cancelled on request from Investors.

#### Call Default

In the event an Investor does not pay a call on its Committed Capital or other amount due to the Fund when required, the Manager will have the right to:

- > seek payment of the due amount plus interest, expenses and costs;
- > apply any amount payable from the Fund to the relevant Investor to offset the unpaid amount plus any accrued interest, expenses and costs; and
- > forfeit and/or sell the Investor’s Units, under the Investment Documents.

Rights attaching to the interests of a defaulting Investor will be suspended while it continues to be a defaulting Investor.

#### Redemption of Units

Private credit is an illiquid asset class. Investors may obtain liquidity by requesting the Trustee to have their Units put into run-off whereby the Investor will not be required to make any

further capital contributions in respect of those Units except to fund their share of any expenses or fees in connection with the run-off investments or otherwise payable to the Trustee or Metrics, and any Outperformance fees payable to Metrics in respect of the Units that are subject to run-off. A proportion of the Fund portfolio will be attributed to the Units that are subject to the run-off.

The Trustee may in its absolute discretion accept or reject a run-off request or elect to redeem Units subject to a run-off request in whole in part. Additionally, the Trustee may, in its absolute discretion, offer Investors to redeem their Units from time to time or apply what it considers to be excess cash of the Trust to redeem a pro rata portion of each Investor's Units.

Liquidation proceeds in respect of the run-off will be paid to the Investor as and when those run-off investments are realised or repaid (as the case may be) and the proceeds will be based on the actual amount received by the Fund for those investments less any actual or reasonably estimated expenses or fees in connection with the run-off investments or otherwise payable to the Trustee or Metrics, and any Outperformance fees payable to Metrics in respect of the Units that are subject to run-off.

The means by which the Unit redemption price will be calculated is set out below.

Investors' Units may be forfeited under the Investment Documents such as where:

- > an Investor is prohibited by an applicable law from being an Investor of the Fund;
- > an insolvency event occurs in relation to the Investor;
- > Units are held in breach of an Investment Document which has a materially adverse effect on the Trustee, Metrics; the Fund or any Investor;
- > Units are held in circumstances which might result in a violation of an applicable law (including by the Fund, Trustee, Manager or an Investor), or subject the Fund to taxation or otherwise adversely affect the Trustee, Fund, Manager or Investors in any material respect;
- > the Investor made a material misrepresentation in the Subscription Agreement in acquiring its Units; or
- > the Investor fails to pay a call amount within the time specified in the Investment Documents.

The Fund may charge an Investor any legal, accounting, administrative or other amounts associated with a compulsory withdrawal.

### **Transaction Costs**

The Trustee may determine an amount of Transaction Costs as appropriate to Applications and/or redemptions for the purposes of ensuring that Investors are not actually or potentially adversely impacted as a result of a redemption of or Application for Units of the Fund.

Transaction Costs are estimates by the Trustee and Manager of the total amounts that the Fund would incur or otherwise bear if the Fund was required to acquire afresh or to sell (as applicable) the trust property. These amounts could include stamp duty, legal expenses, lost interest or reduction in asset values from carrying values. Transaction Costs may be charged to ensure fair treatment of Investors and may be applied even when assets do not need to be acquired or sold.

### **Transfer of Units**

There is unlikely to be a secondary market in Units. However, Investors are able to transfer Units subject to the Trustee's and Manager's prior consent. Transfers are not effective until entered into the register by the Unit registry, and all amounts payable in relation to a Unit will be paid to the registered Investor from the time a transfer is recorded in the Fund register.

### **Distribution Reinvestment Plan**

Income distributions and any Investment Management Fee rebate payments will either be made in cash or, if elected by the Investor, with new Units issued to the relevant Investor.

Units will be issued (and the applicable Unit Issue Price calculated) on the Business Day following the end of the applicable Distribution Period (for distribution reinvestments).

### **Unit Price**

#### **Issue Price**

Units issued prior to or on the date 20 Business Days after the first Closing Date will be at an Issue Price of \$1.00 per Unit. Units will be issued on a fully paid basis.

Thereafter, the Unit Issue Price for Applications will be calculated as follows:

The Issue Price in the case of a distribution reinvestment will, for the avoidance of doubt be calculated post income distribution.

Net Asset Value + Transaction Costs

---

Number of Units in Issue

**Redemption Price of Units**

The Redemption Price for a Unit is calculated as follows:

$$\frac{\text{Net Asset Value} - \text{Transaction Costs}}{\text{Number of Units in Issue}}$$

**INVESTOR COMMUNICATIONS**

**Reporting**

Investors have access to the following information with regards to their investment in the Fund:

- > Daily Unit pricing;
- > Confirmation of each Unit transaction;
- > Monthly holding statements (where there has been dealing in the Investor’s Units in a monthly period);
- > Monthly market performance and asset commentary reporting concerning Fund investments;
- > Audited annual accounts within 90 days of financial year end; and
- > Annual regulatory reporting (such as income tax and distribution statements).

The above will be made available on the investor portal at <https://investor.automic.com.au>.

**Investor Meetings**

Meetings of Investors may be convened by the Trustee or at the request of Investors holding at least 20% of Units (by value). There is no annual meeting of Investors. The Fund Trust Deed provides for the holding of an Investors’ meeting at no less than 10 business days’ written notice. A quorum for a meeting is at least Investors (present or by proxy) holding an aggregate of at least 35% of all Units (by value) (or 50% for a meeting in relation to the removal of the Trustee or Manager). Each Investor has one vote per dollar value of Unit held, and resolutions are binding on all Investors.

**VALUATION OF ASSETS**

The valuation of corporate loans reflects the fact that they are not generally available for sale. Credit risk rather than market risk is the key risk reflected in the asset valuation. Credit risk is assessed in terms of probability that a borrower may default, estimated level of utilisation of a loan at default and the anticipated loss given a default has occurred.

The valuation methods applied by the Trustee to value the Fund’s assets and liabilities must be consistent with the range of ordinary commercial practice for valuing them and represent its assessment of current market value. The Trustee engages an international accounting and professional services firm to provide an independent assessment of the carrying value of the Fund’s loan assets on an ongoing basis.

**DISTRIBUTIONS**

**Income Distributions**

The Trustee intends to make monthly income distributions to Investors, but may in its discretion set distribution periods of different durations.

The Trustee intends to make distribution payments within 10 Business Days of the end of a distribution period.

The calculation of an Investor’s income distribution in respect of a distribution period is generally as follows:

$$\frac{A \times C}{B}$$

- A is the number of Units in a class held by the Investor at the end of the Distribution Period;
- B is the number of Units in a class held by all Investors at the end of the Distribution Period; and
- C is the Distributable Income for the Distribution Period for that class.

If new Units are issued in a month, the Issue Price of the new Unit will reflect accrued income in respect of the month.

Movements in NAV may also provide Fund income reflecting realised and unrealised capital gains or losses on assets, calculated in accordance with Australian GAAP.

**Capital Distributions**

The net proceeds from the maturity, repayment (part or full) or sale of any Fund assets or the release of amounts from reserves for expected losses will in the Trustee’s discretion be distributed to Investors or retained in the Fund for further investment.

## **EXPENSES, FEES & TAXES**

There are a number of fees and costs associated with investing in the Fund, relating to investment management and other costs directly associated with the Fund. These are set out below.

### **Entry and Exit Fees**

Investors will not be charged entry or redemption fees, however Transaction Costs may be applied.

### **Investment Management Fees**

#### ***Base Management Fee***

The Base Management Fee is a recoverable expense of the Fund and is calculated Daily at 0.20% pa on the Gross Asset Value ("GAV") (excluding undrawn loan commitments by the Fund), paid monthly and reflected in the Unit price. Note that the fee quoted excludes GST.

#### ***Outperformance Fee***

Metrics is entitled to an Outperformance Fee equal to 15% of the difference between the Unit Return and the Hurdle, calculated and accrued daily.

The 'Unit Return' is equal to the change in Net Unit Value as at the beginning of each business day, taking into account any transaction benefits and all liabilities for accrued fees (except for the Outperformance Fee), plus any distributions paid or distribution liabilities raised, to Investors of a Class since the last calculation period.

The 'Hurdle' means an amount equal to the Hurdle Return multiplied by the Net Unit Value at the beginning of each business day.

Where the Outperformance Fee due to be paid is a negative amount, no Outperformance Fee will be paid and the negative amount carries forward to the next calculation period.

The Outperformance Fee is payable as at the end of the last Business Day of the financial year, when a Unit is redeemed, or the date of termination of the Manager.

#### ***Maximum Investment Management Fee***

The total Base Management Fee and Outperformance Fee received by Metrics in any financial year must not exceed 0.75% pa of total GAV (excluding undrawn gross loan commitments).

### ***Borrower Fees***

Metrics may receive additional fees from the borrowers of the relevant loans of the Fund. These fees will not be paid from the assets of the Fund but will be paid by the borrower to Metrics. These fees will not be a cost to the Fund and do not affect the returns of the Fund.

### ***Trustee Fee***

The maximum Trustee, Custodian, Fund Administration and Unit Registry fee is 2.00% p.a. of total GAV calculated daily and payable monthly.

### ***Other Costs***

Transactional and operational costs (including third party service provider costs) associated with dealing in Fund assets may be recovered from the Fund in addition to any fees set out above. These costs may also include but are not limited to brokerage, stamp duty, and sub-custody fees.

### ***Trustee and Metrics Indemnity and Liability***

The Trustee is entitled to be indemnified in full out of the assets of the Fund for any liability incurred by it in the proper performance of its duties or powers in relation to the Fund.

Under the Investment Management Agreement, the Trustee indemnifies Metrics for any liability it incurs as manager except to the extent that the liability is caused by the fraud, dishonesty, negligence, wilful misconduct or material unremedied breach of the obligations under an Investment Document by Metrics or any of its officers, employees or agents.

Except in the case where the Trustee has failed to properly perform its duties as required under the Trust Deed, the Trustee is not bound to make any payments to Investors except out of the Fund or to be liable to Investors in excess of the assets of the Fund.

## **OTHER IMPORTANT FUND INFORMATION**

### **Documents Available for Inspection**

Copies of this Information Memorandum and the Trust Deed together with the most recent audited accounts and annual report of the Fund (if any) may be inspected at Metrics' offices during usual business hours. Copies of these documents may also be obtained from the Unit Registry on request.

### Multiple Mandates

Metrics has other investment management agreements with other funds or managed accounts (separate to the Fund) each with its own investment mandate.

Metrics will make investment decisions in respect of each mandate (including in respect of the Fund) having regard to its contractual and legal obligations.

Specifically, where an asset becomes available to Metrics and that asset is within the mandate and Investment Strategy of the Fund and other Metrics clients (“Acquirers”), Metrics will seek, as far as practicable, to allocate the asset pro rata amongst Acquirers.

### Credit Facility

Certain corporate loans are drawn on a progressive basis over the term of the facilities. Such facilities may be undrawn to a significant degree during the initial period and the precise drawdown profile may be uncertain. It is important for the Fund to be able to participate in these facilities.

To enable the Fund to participate in these facilities, the Fund may utilise a combination of Application amounts and any credit facility that may, from time to time, be established by the Fund.

### Fund Leverage

The Fund may also use leverage to prudently enhance Investor returns.

The size of the Fund’s facility will be limited such that when fully drawn, the size of the facility will not exceed 50% of GAV, however this does not include Notes issued by the Trustee.

### Anti-Money Laundering and Counter-Terrorism Financing

The *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (“AML Act”) and other applicable anti-money laundering and counter terrorism laws, regulations, rules and policies which apply to the Trustee (“AML Requirements”), regulate financial services and transactions in a way that is designed to detect and prevent money laundering and terrorism financing. The AML Act is enforced by the Australian Transaction Reports and Analysis Centre (“AUSTRAC”). In order to comply with the AML Requirements, the Trustee is required to, amongst other things:

- > verify your identity and source of your application monies before providing services to you, and to re-identify you if the Trustee considers it necessary to do so; and
- > where you supply documentation relating to the verification of your identity, keep a record of this documentation for 7 years.

The Trustee and the Unit Registry as its agent (collectively the “Entities”) reserve the right to request such information as is necessary to verify your identity and the source of the payment. In the event of delay or failure by you to produce this information, the Entities may refuse to accept an Application and the application monies relating to such Application or may suspend the payment of withdrawal proceeds if necessary to comply with AML Requirements applicable to them. Neither the Entities nor their delegates shall be liable to you for any loss suffered by you because of the rejection or delay of any subscription or payment of withdrawal proceeds.

The Entities have implemented several measures and controls to ensure they comply with their obligations under the AML Requirements, including carefully identifying and monitoring Investors. Because of the implementation of these measures and controls:

- > transactions may be delayed, blocked, frozen or refused where an Entity has reasonable grounds to believe that the transaction breaches the law or sanctions of Australia or any other country, including the AML Requirements;
- > where transactions are delayed, blocked, frozen or refused the Entities are not liable for any loss you suffer (including consequential loss) caused by reason of any action taken or not taken by them as contemplated above, or because of their compliance with the AML Requirements as they apply to the Fund; and
- > the Trustee or the Unit Registry may from time to time require additional information from you to assist it in this process.

The Entities have certain reporting obligations under the AML Requirements and are prevented from informing you that any such reporting has taken place. Where required by law, an entity may disclose the information gathered to regulatory or law enforcement agencies, including AUSTRAC. The Entities are not liable for any loss you may suffer because of their compliance with the AML Requirements.

- > how you may access personal information that the Trustee holds about you and seek correction of such information (note that exceptions apply in some circumstances);

## US Tax Withholding and Reporting Under the Foreign Account Tax Compliance Act ("FATCA")

The United States of America has introduced rules (known as FATCA) which are intended to prevent US persons from avoiding tax. Broadly, the rules may require the Fund to report certain information to the Australian Taxation Office ("ATO"), which may then pass the information on to the US Internal Revenue Service ("IRS"). If you do not provide this information, we will not be able to process your application.

To comply with these obligations, the Trustee will collect certain information about you and undertake certain due diligence procedures to verify your FATCA status and provide information to the ATO in relation to your financial information required by the ATO (if any) in respect of any investment in the Fund.

## Common Reporting Standard

The Australian government has implemented the OECD Common Reporting Standards Automatic Exchange of Financial Account Information ("CRS") from 1 July 2017. CRS, like the FATCA regime, will require banks and other financial institutions to collect and report to the ATO.

CRS will require certain financial institutions to report information regarding certain accounts to their local tax authority and follow related due diligence procedures. The Fund is expected to be a 'Financial Institution' under the CRS and intends to comply with its CRS obligations by obtaining and reporting information on relevant accounts (which may include your units in the Fund) to the ATO. For the Fund to comply with their obligations, the Trustee will request that you provide certain information and certifications to the Trustee. The Trustee will determine whether the Fund is required to report your details to the ATO based on our assessment of the relevant information received. The ATO may provide this information to other jurisdictions that have signed the "CRS Competent Authority Agreement", the multilateral framework agreement that provides the mechanism to facilitate the automatic exchange of information in accordance with the CRS. The Australian Government has enacted legislation amending, among other things, the *Taxation Administration Act 1953* of Australia to give effect to the CRS.

## 4. INVESTMENT RISKS

### INVESTMENT RISKS

Investing in the Fund will expose Investors to a number of risks specific to the corporate debt market. Investing in this Fund has risks and performance of the Fund is not guaranteed by any party including the Trustee or Metrics or any member of the Investment Team.

You should consider the risks set out below carefully and obtain your own advice in deciding whether or not to invest in the Fund.

#### Credit and Default Risk

Credit risk is the risk that one or more assets in the Fund's portfolio will decline in price or fail to pay interest or principal when due because the credit counterparty or borrower experiences a decline in its financial status. Losses may occur because the value of the asset is affected by the creditworthiness of the borrower and by general economic and specific industry conditions.

Whilst all debt assets are subject to credit risk, to the extent the Fund invests in sub-investment grade and un-rated debt, it will be exposed to a greater amount of credit risk than a fund that invests in investment grade rated credit assets. The prices of lower grade debt instruments are more sensitive to negative developments, such as a decline in the borrower's cash earnings or a general economic downturn, than are the prices of higher-grade debt instruments. Debt instruments of sub-investment grade quality are higher risk with respect to the counterparty's capacity to pay interest and repay principal when due and therefore involve a greater risk of default.

Default risk is the risk that a borrower defaults on their obligations, for instance by failing to make a payment due or to repay the principal.

#### Investment Strategy risk

The Investment Strategy to be used by the Manager on behalf of the Fund includes inherent risks. These include, but are not limited to the following:

- > the Fund's success and profitability is reliant upon the ability of the Manager to devise and maintain a portfolio that achieves the Fund's Investment Objective, Investment Strategy and guidelines set out in this Information Memorandum; and

- > the ability of the Manager to continue to manage the Fund's portfolio in accordance with this Information Memorandum, its mandate and the law which may be compromised by such events as the loss of its licence or registrations.

There is no guarantee that the Investment Strategy of the Fund will be managed successfully or will meet its objectives. Failure to do so could negatively impact the performance of the Fund.

The Manager may not manage the Fund in a manner that consistently meets the Fund's Investment Objective over time. In addition, either the Manager, or a key employee of the Manager, may cease to manage the Fund, requiring the Trustee to find an alternative replacement manager, which may affect the Fund's success and profitability.

If the Manager ceases to manage the Fund and the Investment Management Agreement is terminated, the Trustee will need to identify and engage a suitably qualified and experienced manager to manage the Fund and continue to meet the Fund's Investment Strategy.

#### Liquidity Risk

The investments of the Fund are generally less liquid investments than exchange traded instruments as the investments that the Fund is exposed to are long dated (up to 10 year terms). The ability of the Fund to dispose of an investment will depend on market liquidity, the terms agreed with the relevant borrower and the maturity date of the loans. The liquidity of the investments in the Fund will also be dependent on a borrower's ability to repay a loan.

#### Portfolio Construction

The Manager may invest in a variety of assets in differing proportions so as best to implement the Investment Strategy applicable to those funds. The Manager may allocate capital and direct assets in proportions as it may determine having regard to a number of factors. These may include (but are not limited to) availability of capital, origination of opportunities and prevailing market conditions. The Manager may not be able to achieve its preferred allocation in seeking to achieve the Fund's Investment Objective.

#### Interest Rate Risk

The Fund will invest primarily in floating rate instruments meaning that as the underlying base rate rises and falls, the relative attractiveness to other instruments may change.

### **Credit Cycle Risk**

Metrics operates in an industry which is influenced by both domestic and global credit cycles. Credit cycles expand and contract naturally over time in line with macroeconomic variables and are influenced by governments' fiscal and monetary policies.

During the contraction phase, serviceability and liquidity of debt can deteriorate meaning the value of debt assets could decline considerably.

### **Leverage Risk**

To the extent that the Fund uses its credit facility to fund investments in revolving working capital facilities, and the counterparty to an investment working capital facility was to fail to pay interest or principal when due (a payment default), the Fund is still itself obliged to service its interest and principal payment obligations. The inability to do so may give rise to the Fund's loan provider taking action under the relevant facility terms to recover amounts owed. The provider would be senior to Investors, and have a first claim over the assets and cash flows of the Fund.

### **Utilisation Risk**

The Fund will invest in both drawn and undrawn loans, including in revolving credit facilities that may be drawn up and down by the borrower over time. Borrowers will typically pay a margin over a floating benchmark on drawn amounts, and a percentage of that margin (only) on the un-drawn amount. Alternatively a borrower might pay a flat fee based on total availability in advance, and then a margin over a floating benchmark on drawn amounts. Returns will vary depending on the utilisation of such revolving loans.

### **Valuation Risk**

Valuation risk is the risk that an asset is overvalued or undervalued and is worth less or more than expected when it matures or is sold. Factors contributing to valuation risk can include but are not limited to, data issues, market liquidity, market instability or volatility, and financial modelling assumptions.

### **Investment Risk**

The value of an investment in the Fund and/or the Fund's investments may fall over the short or long term for a number of reasons, including the risks set out in this section. The price of individual debt securities may fluctuate or

underperform other asset classes over time. An Investor is exposed to these risks through the life of their holding of Units in the Fund and through the Fund's investment strategies and policies.

### **Market and Economic Risk**

Certain events may have a negative effect on the price of all types of investments within a particular market in which the Fund holds investments. These events may include (but are not limited to) changes in legal, tax, economic, social, technological or political conditions, laws and general market sentiment the causes of which may include changes in governments or government policies, political unrest, wars, terrorism, pandemics and natural, nuclear and environmental disasters. The duration and potential impacts of such events can be highly unpredictable, which may give rise to increased and/or prolonged market volatility. Industry specific shocks relevant to underlying loan assets and general market disruption can adversely impact the value of Fund assets.

There can be no guarantee given in respect of the future earnings of the Fund or the earnings or any capital appreciation of the Fund's investments.

### **Manager and Trustee Replacement**

The Manager may request that the Trustee retire as Trustee of the Fund. The Trustee must retire if directed to retire by an ordinary resolution including where: either an insolvency event has occurred in respect of such person; continuing to act as trustee is either prohibited by applicable law or would result in the Trustee or Fund incurring a material penalty and such is not rectified (if possible to rectify) within 60 Business Days after such requirement occurring. The Trustee must also retire if directed to do so by ordinary resolution provided that at least 30 days' prior notice of the proposed resolution is given to the Trustee and it is given the opportunity to address the members at the meeting at which the resolution is considered; and the Trustee:

- > has acted with dishonesty or wilful misconduct, or acted fraudulently or negligently in its role as Trustee; or
- > is in breach of a material obligation under an Investment Document which has had a materially adverse effect on the Fund or its members and the breach is not remedied within 20 business days after the later of the date of that ordinary resolution or the date specified in the ordinary resolution.

The Manager may be directed to retire by an ordinary resolution in the circumstances set out in section 3 of this Information Memorandum.

Certain loan investments and agreements may have change of control rights granted to third parties such as borrowers. These rights can be triggered if there are significant changes in the ultimate owner of the Manager.

#### **Derivative Risk**

It is not anticipated that the Fund will use derivative instruments, however, the Fund does have the ability to use derivatives if the Manager determines that they are required.

#### **Legal and Regulatory Risk**

Legal and regulatory risk is the risk that a change in government policies, laws and regulations (including taxation and accounting) may adversely affect the value of an investment in the Fund or its underlying assets.

#### **Service Provider Risk**

The performance of the Fund's portfolio relies on the successful performance of the Trustee's contracts with service providers, such as the Investment Management Agreement with the Manager. The Fund could be exposed to the risk of loss if a counterparty does not meet its obligations, including due to insolvency, financial distress or a dispute over the terms of the contract or the termination of any of the material agreements and there can be no assurance that the Trustee would be successful in enforcing its contractual rights. In the case of a counterparty default, the Fund may also be exposed to adverse market movements while the Trustee sources replacement service providers.

Entities within the Perpetual Group may act in various capacities (such as trustee and custodians) for other funds or accounts. Other roles may conflict with the roles they play in operating and managing the Fund.

Perpetual Group have implemented policies and procedures to identify and, where possible, mitigate or avoid conflicts associated with the service providers of the Fund, including where Perpetual may act in various capacities in a transaction. All agreements with related party service providers have been entered into on terms that are similar to those the Trustee would have negotiated with an unrelated party and the Trustee must still ensure that the appointment of the related party is in the best interests of the members of the

Fund. Each business carries out the services on behalf of separate legal entities. All documents and agreements are separately reviewed and signed off by each business unit. Perpetual also has separate supervision protocols applicable to relevant persons or entities whose principal function involves carrying out activities on behalf of, or providing services to parties with potentially conflicting interests.

The Trustee also receives regular reporting from all service providers and conducts ongoing monitoring of all its service providers on a regular basis.

The Perpetual Group, including the Trustee, have in place governance frameworks, group policies and divisional procedures to ensure conflicts are identified and managed appropriately. These conflict policies are aimed at ensuring that conflicts involving individuals or related entities in the Perpetual Group are identified, reported, assessed and managed in a timely and appropriate manner in order to uphold the best interests of clients, members and shareholders. This ensures that Perpetual and its related entities are adopting and promoting a culture of awareness and effective management of conflicts of interests when carrying out its operations. As part of the management of conflicts, Perpetual maintains a register of generic corporate conflicts, including related party conflicts, acting in multiple capacities on the same transaction and service provider to multiple entities, and how these conflicts are to be managed. When such a conflict is identified, the register provides for certain controls to be utilised in order to manage this conflict. Examples of controls include engaging on 'arm's length' or third party terms, use of information barriers and compliance plans.

Additionally, the Trustee has a duty under the Corporations Act to act in the best interest of the members of the Fund, and where there is conflict between the members' interests and its own to give priority to the members. The Trustee must follow this duty when making decisions about and managing any potential conflicts of the Fund.

#### **Trustee Risk**

The Trustee is required to supervise and monitor the Manager and other service providers to the Fund. The Trustee has put in place policies and procedures to achieve this. These measures may not however be successful or adequate, resulting in such service providers not being adequately supervised and monitored. This could result in the Trustee not being in a position to protect the interests of unitholders.

### **Distribution Risk**

The Fund's ability to pay a distribution is contingent on the income it receives. No guarantee can be given concerning the future earnings of the Fund, the earnings or capital appreciation of the Fund's portfolio or the return of your investment. The Manager may make poor investment decisions which may result in the Fund's return being inadequate to pay distributions to unitholders.

### **Potential Conflicts of Interest**

Situations may arise where Metrics, the Trustee and the Trustee's related entities have interests that conflict with those of the unitholders.

The Manager is the manager to other funds and accounts not described in this Information Memorandum. While the Manager has implemented policies and procedures to identify and mitigate conflicts of interest, it is possible therefore that the Manager may, in the course of its business, have potential conflicts of interest which may not be managed effectively and may be detrimental to the Fund and its unitholders.

These conflicts could include the Manager having to decide which clients and funds it allocates investment opportunities to. In order to manage this conflict, the Manager has a policy of allocating opportunities between those funds and clients for which the opportunity is considered appropriate and among such clients and funds proportional to their available capital for that opportunity.

### **Multiple Exposures Risk**

The Fund and other clients or funds of Metrics may be exposed to different types of debt investments in respect of the same borrower. This can create a conflict of interest where there is a default by the borrower and there is insufficient money to repay all of the debt. In these situations, the lower ranking debt and the equity may incur a complete loss. The Manager takes a mechanical approach to dealing with these types of situations by engaging a third-party valuer to value the investments and then seeks to recover at least those valuations. To manage any conflict such investment is considered separately and is managed according to its terms so that, for example, the most senior debt is always paid in priority to lower ranking debt.

### **Litigation Risks**

From time to time, the Trustee may be involved in litigation. This litigation may include, but is not limited to, contractual claims. If a claim is pursued against the Trustee, the litigation may adversely impact on the profits and financial performance of the Fund. Any claim, whether successful or not, may adversely impact on the Fund's Unit price and/or the return on your investment.

### **Cyber Risk**

There is a risk of fraud, data loss, business disruption or damage to the information of the Fund or to Investors' personal information as a result of a threat or failure to protect this information or data.

### **General Risks**

The performance and profitability of the Fund may be affected by many factors including the fact that the value of the portfolio in which the Fund invests may vary over time. This may result in either an increase or decrease in the value of Units and ultimately the value of your investment, which may result in the loss of income and the principal you initially invested.

Other factors which may impact on the value of the Units include asset risk, concentration risk, credit risk, counterparty risk, Manager risk, risks pertaining to the engagement of the Manager, the ability of the Manager to invest in well-managed companies which have the ability to service and repay their loans and retention of key personnel of the Manager risk.

The Trustee, the Manager, the Distribution Partner do not guarantee the return of capital, any rate of return in terms of income or capital or the investment performance of the Fund.
